Comments.

(1) This observation, though not confirmed by other sources, indicates that units were leaving Doeberitz airfield which was previously occupied by two ground attack regiments.

(2) The shipment is connected with troop movements from Jueterbog-Altes Lager to Doeberitz which were previously reported by another source.

To date, the transfer of ground units, but not of air units, has been observed.

(3) The incipient transfer of ground attack regiments from Jueterbog to Doeberitz probably accounts for the re-dispatch of gasoline shipments.

is probably assigned to a supply unit in Jueterbog. reported for the first time.

(4) These trains were previously reported by other sources.
